# QUICK REFERENCE BENEFIT CHART

## After You Leave the University – Guaranteed Standard Issue (GSI) Option

The following benefits apply to eligible residents, fellows and interns after leaving the University of Minnesota. You can enroll in the GSI option anytime during and up to 90 days after completion of your residency, fellowship or internship. There are no exclusions or modifications to the GSI option for any pre-existing medical conditions you may have.

The GSI option will only be available to individuals that have not been declined or given a modified offer of individual disability insurance through a carrier other than Guardian within the last 5 years or within 9 months since beginning their program at the University of Minnesota, whichever is less. If an individual does not qualify for the GSI offer, they will still be given the opportunity to do a smaller conversion to an individual Guardian disability policy but this conversion offer is not as robust as the GSI offering.
