Please consider talking to your doctor about prescribing formulary medications, which may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate medication for you.

The drug formulary is regularly updated. Please visit www.shb.umn.edu and www.bluecrossmn.com/uofm for the most up-to-date formulary.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

Introduction

Blue Cross and Blue Shield of Minnesota, Blue Plus and the Student Health Benefit Plan are pleased to present the FlexRx drug formulary (drug list). Our goal is to give members access to safe and effective prescription drugs at a reasonable cost.

Brand name drugs are not included in this formulary unless they are listed. Blue Cross and the Student Health Benefit Plan may choose to not add a drug to the formulary because of effectiveness or safety concerns, or because a similar, more cost-effective drug is already on the formulary. New drugs are non-preferred (**NP**) until reviewed and approved for inclusion by the Pharmacy and Therapeutics (P&T) Committee and Coverage Committee in collaboration with the Student Health Benefit Plan P & T Committee.

Blue Cross encourages providers to prescribe preferred drugs.

Your drug benefit is presented in the Drug Formulary, and includes most prescription drugs, although some restrictions and exclusions do apply. For example, investigational drugs and drugs indicated for cosmetic purposes, e.g., Propecia, may not be eligible for coverage under your prescription drug benefit. Some drugs may only be available through your medical benefit. Coverage and copayment levels vary depending on the plan. This prescription drug benefit is multi-tiered, placing prescription drugs into one of four Copay/Coinsurance levels:

- Preferred Generic drugs (Tier 1)
- Preferred Brand drugs (Tier 2)

Pharmacy and Therapeutics (P&T) Committee and Coverage Committee

The Student Health Benefit Plan selects drugs for this formulary in collaboration with the Blue Cross P&T Committee & Coverage Committee based on recommendations of an independent Pharmacy and Therapeutics (P&T) Committee that includes practicing physicians and pharmacists. Decisions to add or remove drugs from the FlexRx formulary are based on the drug's safety, effectiveness, uniqueness and cost. The P&T Committee and Coverage Committee meet at least quarterly. All drugs are reviewed each year as required by the National Committee on Quality Assurance (NCQA) standards.

You can find recent changes and the current version of the formulary at www.shb.umn.edu and bluecrossmn.com/uofm.

Formulary guidelines

The requirement of P&T and Coverage Committee review is a precondition of Blue Cross coverage and:

- Applies in addition to all other conditions and terms stated in Blue Cross contracts and stated herein; and
- Applies to medications and medical devices when administered in any manner that is approved by the U. S. Food and Drug Administration (FDA); and
- Applies to approved medications legally prescribed and medical devices legally used when administered in any manner that is not mentioned in the labeling approved by the FDA (referred to as an “off-label” use). Use of a medication or medical device for an indication, dosage form, dose regimen, population, or other use parameter not mentioned in the approved labeling is considered to be an “off-label” use.

These guidelines in no way imply that members should not receive specific services based on the recommendation of the provider. These guidelines govern coverage and not clinical practices. Providers are responsible for giving medical advice and treating members. Members with specific health care needs should consult an appropriate health care provider.

Members and providers have the right to make a formulary exceptions request. These rights are explained in member and provider plan documents. Members and providers with questions about the formulary exception or appeal rights should call the Office of Student Health Benefits at 612-624-0627.

This information is not an offer of coverage, solicitation of coverage, summary of coverage or guarantee of coverage. All products and coverage guidelines are subject to applicable laws and regulations. Member or provider coverage is contingent on all the applicable terms, conditions, limitations and exclusions of member or provider plan documents.

Formulary addition request

Any health care provider may request in writing that the SHBP consider adding or deleting a drug from the formulary. All formulary requests are brought before the SHBP P& T Committee.

Generic drugs

Blue Cross encourages use of generic drugs as a way to provide high-quality, cost-effective care. Generic drugs are safe, effective and they may cost less than brand name drugs. Members will likely pay a lower copayment or coinsurance for a generic drug.

Frequently asked questions about generics

Are generics as good as brand name drugs?

Both brand name and generic drugs must be approved by the FDA. Generic drugs meet the same high standards as brand name drugs.

Why should I take generics rather than brand name drugs?

We must all do our part to make health care affordable. One way is to be wise buyers of drugs. Generics provide the same effectiveness and safety as their brand name counterparts, but are often lower in cost. This typically occurs when competition among several manufacturers who produce the generic drug, results in lower prices for it. Lower costs generally mean lower copayments for members. Generics also save money for your health plan, so it can help keep insurance premiums as low as possible.

How can I take advantage of lower-cost generics?

Ask your pharmacist for a generic whenever available. Also, talk with your doctor or other provider about prescribing generic drugs. Most drug classes include some generic drugs.

How to use this list

The drug list is organized into broad categories (e.g., HORMONES, DIABETES AND RELATED DRUGS).

The first column of the chart lists the drug name. Generic drugs are listed in lowercase boldface (e.g., budesonide ext-release)

Preferred brand name drugs are capitalized (e.g., CORTISONE). Non-preferred brand name drugs are not included in this

Drug List Separate drug entries are required for some dosage forms or routes of administration.

Compounded prescriptions

Compounded prescriptions contain two or more drugs mixed together. The end product cannot be available in an equivalent commercial form (except for hydroxyprogesterone). Plus, at least one ingredient must be an FDA-approved prescription drug. Compounded prescriptions are processed according to member benefits.

Injectable drugs

Self-administered injectable drugs are generally part of the pharmacy benefit and may be included on the formulary. Injectable drugs are processed according to member benefits.

Benefit programs

Retail Pharmacy Vaccine Program

Blue Cross has an optional vaccine pharmacy program for flu, pneumonia, shingles, diphtheria tetanus combinations, human papillomavirus (HPV) and meningitis vaccines. Members with this benefit can simply present their health plan member ID card when visiting a participating pharmacy. The cost share will be based on their pharmacy coverage for this benefit. Members can go to **MyPrime.com** to locate network pharmacies that administer approved vaccines for Blue Cross Blue Shield of Minnesota members.

Please note that age limitations, advance registration or other requirements may apply. The availability of each vaccine may vary by individual pharmacy or location. For your convenience, you may contact the pharmacy in advance if you have questions or to make sure these services are available at a particular location.

Affordable Care Act Contraceptives

Select contraceptives will be covered without cost share for women in accordance with each member's specific benefit plan. This new contraceptive benefit will take effect on the first day of a member's plan year, on or after January 1, 2014. Managing drug usage

Formulary Exceptions

- To request coverage of a non-preferred drug for a member with a closed formulary benefit plan
- To request a brand name drug exception for a member with a mandatory generic plan

Steps on how a prescriber may request a Formulary Exception:

- A prescriber may obtain a *Minnesota Uniform Form for Prescription Drug Prior Authorization Request & Formulary Exceptions*. The prescriber can also obtain the form by calling the Student Health Benefits Office at 612-624-0627.
- Submit the completed request form to the following address or fax:

Office of Student Health
Benefits Review Department
410 Church Street SE N323
Minneapolis, MN 55455
Fax number: **612-626-5183**
or **1-800-624-9881**

Prior Authorization

Some drugs require prior authorization because of their high potential for misuse or overuse. Coverage may be approved after certain criteria are met. Approval is required for claims to process at network pharmacies. Policies regarding the covered uses of drugs and drug classes requiring prior authorization can be found at **bluecrossmn.com**. For more information, call the number on the back of your member ID card. Providers can call provider services at **651.662.5200** or toll free at **1.800.262.0820**.

Steps on how a prescriber may request a Prior Authorization:

Drug Name

INSULIN

The formulary includes vials and insulin pens for the insulin products listed. Humulin R 500 units/ml is only available in vials.

Rapid-Acting Insulins

HUMALOG OR NOVOLOG (depends on locations)
 INSULIN ASPART (insulin aspart inj 100 unit/ml)
 INSULIN ASPART FLEXPEN (insulin aspart soln pen-injector 100 unit/ml)
 INSULIN ASPART PORTAMINE/INSULIN ASPART (insulin aspart prot & aspart (human) inj 100 unit/ml (70-30))
 INSULIN ASPART PROTAMINE/INSULIN ASPART FLEXPEN (insulin aspart prot & aspart sus pen-inj 100 unit/ml (70-30))

Short-Acting Insulins

HUMULIN or NOVOLIN R (depends on plan/location)

Intermediate-Acting Insulins

HUMALOG MIX 50/50, 75/25 or NOVOLOG 70/30 (depends on plan/location)
 HUMULIN N or NOVOLIN N (depends on plan/location)
 HUMULIN 70/30 or NOVOLIN 70/30 (depends on plan/location)
 NOVOLIN N FLEXPEN (insulni nph (human) (isophane) susp pen-injector 100 unit/ml)
