Dear Medical School residents and fellows,

Because you receive group disability coverage through the University of Minnesota — you can convert to an individual Long-Term Disability Insurance policy now!

It’s not too early to get started with your financial planning! Connect with the Medical School’s designated Foster Klima disability representatives to find out how:

Residents and fellows from the Departments of Dermatology, Laboratory Medicine and Pathology, Medicine, Neurology, Ophthalmology, Otolaryngology, Physical Medicine and Rehabilitation, Psychiatry, Radiation Oncology or Radiology, contact:

- Donald Beattie, CFP® | 612-746-2218 | donald_beattie@fosterklima.com

Residents and fellows from the Departments of Anesthesiology, Family Medicine and Community Health, Neurosurgery, Obstetrics and Gynecology, Orthopaedic Surgery, Pediatrics, Surgery, or Urology, contact:

- Joe Barwick | 612-746-2264 | joe_barwick@fosterklima.com

Donald and Joe are the only planning representatives endorsed by the University to sell disability coverage. They can answer all your questions about the Guaranteed Standard Issue (GSI) Conversion Option — as well as any other financial questions you may have.

So set up a meeting with Donald or Joe soon!
